GUIDELINES FOR AUTHORS

❖ **Title Page**

This page should contain the full title of the paper and complete names, affiliations, addresses, phone and fax numbers, and e-mail addresses of all authors. The contact author should be indicated.

❖ **Abstract**

The abstract must be a concise yet comprehensive reflection of what is in your article. In particular:• The abstract must be self-contained, without abbreviations, footnotes, or references. It should be a microcosm of the full article.• The abstract must be between 150-250 words. Be sure that you adhere to these limits; otherwise, you will need to edit your abstract accordingly.• The abstract must be written as one paragraph, and should not contain displayed mathematical equations or tabular material.• The abstract should include three or four different keywords or phrases, as this will help readers to find it. Image quality is very important in how the graphics will reproduce. IBT accepts PostScript (PS), Encapsulated PostScript (EPS), Portable Document Format (PDF), Portable Network Graphics (PNG), or Tagged Image File Format (TIFF) for graphics submissions. Only when graphic was originally drawn in the program is it acceptable to submit Microsoft Office Documents (DOC, PPT, XLS). High-resolution JPGs are acceptable for author photos only. Detailed instructions and frequently asked questions about graphic and multimedia submissions can be found at the following URLs.
